

TABLE TENNIS

Swiftflyte presents the most extensive line of table tennis products available today.

Over 50 years of expertise and professional player input combine to create each Swiftflyte product. This is why people who know Table Tennis choose Swiftflyte.

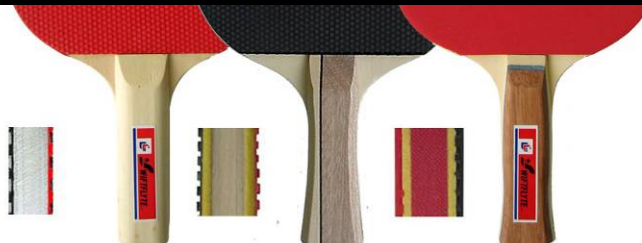

PACKAGING:

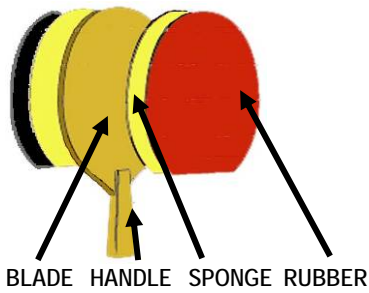

Swiftflyte Table Tennis equipment is packaged to provide as much consumer information as possible. Each product is endorsed by the Canadian Table Tennis Association (CTTA) and Armand Phung, French mixed double champion and winner of TOP 12 French National Tournament. Our colour coded packaging and unique ranking system help Swiftflyte table tennis products sell themselves.

NEW TECHNOLOGY FROM SWIFTFLYTE™

<p>SHOCK ABSORBER</p> 	<p>COMFORT HANDLE</p> 	<p>POWER GRIP</p> 
<p>For the player looking for the ultimate combination of control and feel with a bat designed for offence, Swiftflyte introduces the Shock Absorber table tennis bat. A hollow handle is reinforced with the Shock Absorber Tube, a rigid plastic tube extending the length of handle with a rubber ring on the butt end to absorb vibration. The result is better control, increased precision and, due to the weight shift, faster bat speed.</p> <p>Typhoon Bat # 12145 & 12146</p>	<p>For increased comfort and reduced blistering, Swiftflyte launches the new Comfort Handle table tennis bat. An EVA foam dome has been added to a shortened handle, creating a soft surface against which the hand can grip.</p> <p>Cyclone Bat # 12173 & 12131</p>	<p>Power Grip is a new rubber with micro pattern surface designed for better control and easier play.</p> <p>The sample of Power Grip rubber is displayed on top of the blister packaging inviting customer/ player to experience its unique feel</p> <p>Blizzard Bat # 12214</p>

						<p>INSTITUTIONAL AND OUTDOOR</p> <p>The best institutional table tennis racquets on the market. Each paddle is moulded from a special plastic that is much more durable than wood and at the same time has good play characteristics.</p> <p>Pack: 50</p>	
<p>STRAIGHT #12190</p>	<p>STRAIGHT #12191</p>	<p>STRAIGHT #12192</p>

RUBBER

Rubber is critical in determining the quality of a table tennis racket. Lion-Swiflyte rubbers are produced with the most advanced Japanese rubber technology under strict quality control to offer the best performance in each category.

SPONGE

The combination of sponge from soft to hard and rubber can produce a wide range of both spin and speed.

HANDLE

Handle style is a personal choice. Competitive players generally prefer unfinished wood handles because they absorb perspiration. Handles can be wrapped, straight, concave or anatomic.

SPEED/SPIN/CONTROL

Each series of our table tennis bats has a unique match between Blade, Sponge and Rubber to meet each player's individual demand. A defensive player will demand greater control, while an attacking player will seek more speed and spin. As the quality of the racket increases, control is usually sacrificed for speed and spin.
